PopUpArena's innovation for 2012 is **AstroTile120 SuperSport** - an easy, quick portable performance surface to dramatically improve the playing sport experience for young people.

Our unique interlocking tiles can be set out, in as little as 30 minutes, to create running tracks, courts or pitches for many different sports (some illustrated). The system can be used indoors or outdoors and comes complete with 120 sqm of surface, ramped safety edges, storage trolley, cassettes of re-usable marking tape and a comprehensive set up guide.

"Our children love this surface to play a variety of sports on. It is an excellent addition to our current playground markings, very versatile and great value for money."

**Lesley Lawrence, Head
West Byfleet Junior School**

Easy set up by 2 people in as little as 30 minutes.

"From a coaching perspective this surface is excellent. Safe, consistent and grippy - even in the wet - and forgiving on young muscles and joints. It is durable, looks very professional, is quick and easy to set up and gives a whole new dimension to our in-school coaching programmes."

David Ghosh, MD, Inclusive Coaching
